

## *Trim Systems: Built Around You*

### **INTERGRATED SOLUTIONS FOR YOUR SPECIFIC NEEDS.**

Trim Systems is the leading manufacturer of soft trim and integrated systems for the heavy-duty commercial vehicle market. We offer full-service design, engineering, manufacturing, and delivery of interior soft trim and hard trim products.

- Full Service Engineering
- 2D process
- 3D product
- SRIM & RRIM
- Injection Molding
- Vacuum forming
- Cut-n-Sew
- Assembly

*“Trim Systems is committed to offering a diverse scope of products and services to meet the changing needs of its customers.”*

We offer our hard trim customers expertise in rotary thermoforming, injection molding, vacuum forming, six axis router cutting, and reinforced vinyl clad RIM. In addition, our 3D compression molding process enables us to design parts with molded contouring.

Trim Systems soft trim customers enjoy the flexibility of our 2D and dielectric processes, which allow for creative product styling and stitching, the ability to process logos, and an alternative to cut and sew if desired.
